

VERY QUIET

Dawson Markets Well Supplied and Firm

During the past week there has been no particular change in the market quotations, says the Dawson Sun of May 7. Business has not improved any. A lively business is anticipated, however, when the river opens, for in previous years it has been the means of bringing people to town to make spring purchases. There is always that expectation that prices will fall considerably if the market does not collapse entirely. However, this year finds the market steady, with stocks in all lines adequate to meet the demand for a few months yet, and taking everything into consideration prices are as low now as can be expected until the July shipments begin to squeeze the market in competition.

The market is well supplied with eggs, there being more than will be needed to carry the market until new stock arrives. Dried fruits are very slow. Cream is holding firm at \$7.50 for family and \$8.50 for hotel.

Canned vegetables are very slow and are selling at almost cost. Potatoes are being offered at as low as 12 cents, at which figure the market will be cleaned out before new stock arrives. Onions are jobbing at 10 cents.

SMALL LOT

Not a Ship Load Nor Yet a Car Load

But a nice, good assortment of choice cut glass will be closed out tomorrow at a price to sell it all. My store is small and I must condense my stock and close out several lines of goods to better display a smaller assortment. The first line I murder will be the cut glass and tomorrow is the day it will go as no one can meet the prices. There are fruit and salad bowls, jugs, decanters, celery trays, tumblers, bon bon dishes, hand-painted nappies, whisky glasses, oil bottles, etc. I would advise you to come early as the stock is very limited.

How to Judge Beer

POINTS OF EXCELLENCE

- "BRILLIANCY"—Clarity and polish, proving perfect brewing and fermentation.
- "CLEAN" TASTE—The absence of a disagreeable foreign or "after-taste," proving scrupulous cleanliness during the brewing process.
- "SOLID, CREAMY FOAM"—An infallible indication of body, age and excellence of brewing material.
- "PURITY"—Impossible to find in most bottled beers, because their preservation is gained through chemical adulteration.
- "FLAVOR"—The distinctive individual characteristic of any beverage; as peculiar to it alone as its odor to the rose. A delicious and pronounced, boy aroma is the highest standard.

A. B. C.

Is the ONLY beer that possesses all of these essential qualifications. Its purity is absolutely guaranteed by its makers. It is the ONLY beer that can be so guaranteed, because it is the ONLY beer bottled exclusively at the brewery.
